

Learning Path Generator: MVP User Journey

Use case diagram — start to finish, mapped to Basic Requirement user stories

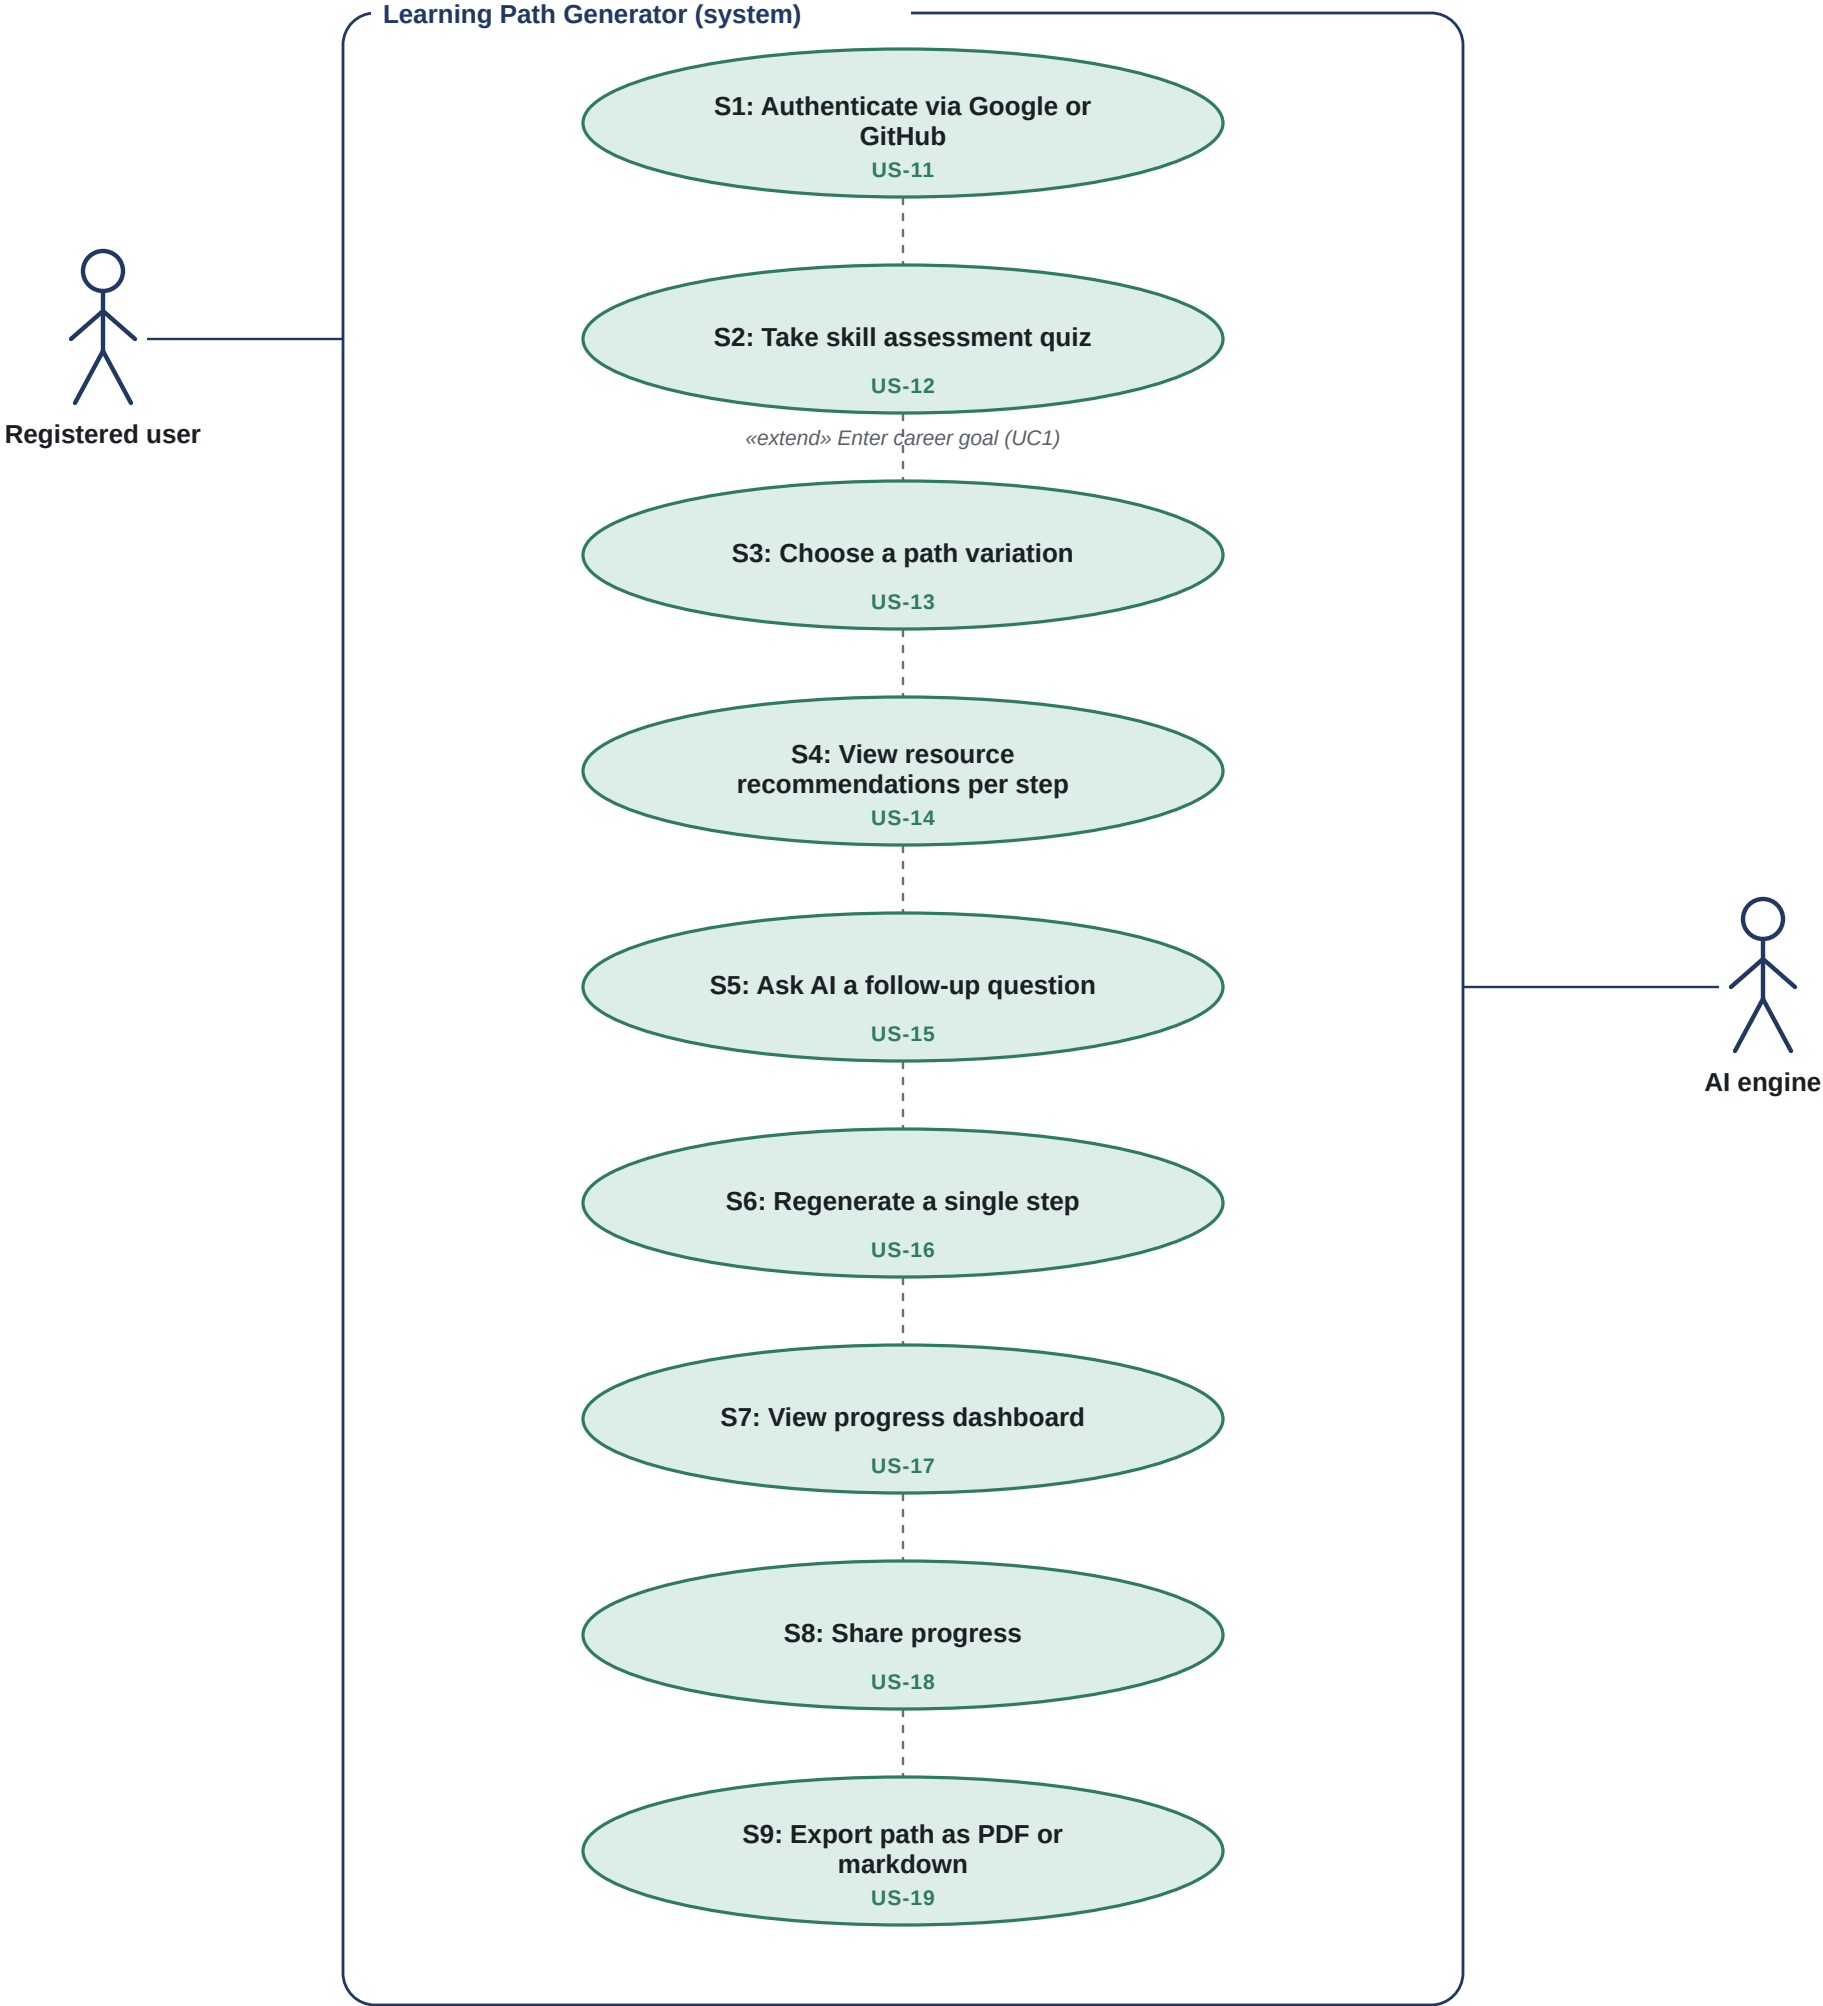

User story reference

- US-1** As a user, I want to enter my career goal so the app knows what path to build.
- US-2** As a user, I want to share my skill level, background, and time available so the path fits me.
- US-3** As a user, I want my input checked before it's sent so I know if something is missing.
- US-4** As a user, I want to see the app is working while my path is generated.
- US-5** As a user, I want my input sent to an AI API so I get a personalized path.
- US-6** As a user, I want the path shown as clear, organized, sequential steps.
- US-7** As a user, I want to check off steps I've completed.
- US-8** As a user, I want to see an overall progress indicator that updates as I go.
- US-9** As a user, I want to regenerate a new path with different input, replacing the old one.
- US-10** As a user, I want a clear error message if generation fails, so I know to try again.

Learning Path Generator: Stretch Goal Extensions

Use case diagram — optional add-ons layered onto the MVP journey, mapped to Stretch Goal user stories

User story reference

- US-11** As a returning user, I want to sign in with Google or GitHub to secure my account.
- US-12** As a user, I want a short quiz to gauge my skill level instead of self-reporting it.
- US-13** As a user, I want 2–3 path options (Fast Track, Balanced, In-Depth) to choose from.
- US-14** As a user, I want specific resource suggestions for each step, not just a description.
- US-15** As a user, I want to ask the AI follow-up questions about any step in my path.
- US-16** As a user, I want to regenerate just one step without redoing the whole path.
- US-17** As a user, I want a dashboard showing my stats across all my learning paths.
- US-18** As a user, I want to share a summary of my progress with others.
- US-19** As a user, I want to export my path as a PDF or markdown checklist.
